## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 9-16 allowed, renumbered as 1-8.
2. The following is an examiner's statement of reasons for allowance:

There is no reference in prior art teach or suggest a method for regulating passages of passengers who carry short range radio technology based portable terminal devices, in a passageway that is extended along a passing direction of the passengers, comprising:

sensing the passengers in the passageway, by human sensors;

detecting a number of passengers entering into the passageway according to outputs of the human sensors, by a radio communication unit having a communication possible range within which terminal devices of a plurality of passengers in the passageway can be located simultaneously:

performing transmission/reception of data at the radio communication unit with respect to only one terminal device of one passenger in the passageway by establishing a connection only with the one terminal device; and

controlling opening or closing of a gate unit provided at an exit side of the passageway, which is to be opened or closed to regulate the passages of the passengers, according to the data received by the radio communication unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
